

B.Sc. Semester-IV (Honours) Examination, 2023-24

COMPUTER SCIENCE

Course ID: 41515

Course Code: SP/CSC/405/SEC-2

Course Title: HTML Programming

[SYLLABUS 2017-18]

Time: 1 Hour 15 minutes.

Full Marks: 25

The figures in the margin indicate full marks.

Answer all the questions

UNIT-I

1. Answer *any five* of the following questions: (5×1 = 5)
- a) What is an Anchor Tag in HTML?
 - b) What is the difference between Container tag and Empty tag?
 - c) Why <!DOCTYPE> is used in HTML 5?
 - d) What is <Marquee> tag in HTML?
 - e) What is the use of <HR> tag?
 - f) What is the difference between HTML and HTTP?
 - g) What are some common HTML tags?
 - h) How to add an image in in html document? write the tags.

UNIT-II

2. Answer *any two* of the following questions: (5×2=10)
- a) Describe HTML layout. What are tags and attributes in HTML? 3+2
 - b) What are different types of list in HTML? Discuss briefly with examples. 5

[Turn Over]

- c) What is the differences between HTML elements and tags?
5
- d) What is CSS? What are the different ways of using CSS in a HTML document? How can you use CSS border? 2+2+1

UNIT-III

3. Answer *any one* of the following questions: (1×10 = 10)
1. What is Form? Explain different input elements that are used in HTML Form.
 2. Write HTML program to create the following table:

Product	Flavours
Milk	Almond
	Mango
	Chocolate
These are exclusive flavours

Time: 1 Hour 15 minutes.

Full Marks: 25

The figures in the margin indicate full marks.

Answer all the questions

UNIT-I

1. Answer *any five* of the following questions: (5×1 = 5)

- a) What is HTML?
- b) Give two examples of empty tag.
- c) What is the major section of a HTML document?
- d) What is the purpose of the src attribute in the tag?
- e) What are the different types of heading in HTML?
- f) What is the function of <BODY>tag?
- g) Does a hyperlink only to text?
- h) what is anchor tag in html?

UNIT-II

2. Answer *any two* of the following questions: (5×2=10)

- a) What are the different types of lists in HTML? Discuss briefly with examples. 5
- b) What is CSS? What are the different ways of using CSS in a HTML document? How you can use CSS border? 2+2+1
- c) What is cell padding and cell spacing? Discuss briefly. 5

[Turn Over]

- d) How do you separate a section of texts in HTML? What is the purpose of <pre> tag in HTML? 3+2

UNIT-III

3. Answer *any one* of the following questions: (1×10 = 10)

- a) Create an HTML form to input the basic details of an employee.
- b) Write HTML program to create the following table:

Name		Rahul Bose	
Roll No		101	
Subject	Theory	Practical	Total
Java	70	15	85
Multimedia	75	20	95

Course Title: XML Programming

[SYLLABUS 2017-18]

Time: 1 Hour 15 minutes.

Full Marks: 25

The figures in the margin indicate full marks.

Answer all the questions

UNIT-I

1. Answer *any five* of the following questions: (5×1 = 5)
- a) What does XML stand for?
 - b) What is XML entity?
 - c) What are the special characters used in XML?
 - d) What are the data types supported by PHP?
 - e) What is XPath?
 - f) What is structure of XML?
 - g) What are XML Namespaces?

UNIT-II

2. Answer *any two* of the following questions: (5×2=10)
- a) Define element and attribute in an XML document with example
 - b) What are the features of XML? Can we replace HTML with XML?
 - c) Explain XSL as style sheets in XML.
 - d) Explain content definition format with example.

[Turn Over]

UNIT-III

B.Sc

3. Answer *any one* of the following questions: (1×10 = 10)

- a) Explain the procedure for validating the XML documents.
- b) How can both Internal and External DTDs be used in an XML file? Show with an example.

Course Title: PHP Programming

[SYLLABUS 2022-23]

Time: 1 Hour 15 minutes.

Full Marks: 25

The figures in the margin indicate full marks.

Answer all the questions

UNIT-I

1. Answer *any five* of the following questions: (5×1 = 5)

- a) What is PHP?
- b) What is the use of "echo" in PHP?
- c) What is PEAR in PHP?
- d) What is the use of loop in PHP?
- e) What is 'Traits'?
- f) What is the use of "ksort" in PHP?
- g) Name some of the popular frameworks in PHP?

UNIT-II

2. Answer *any two* of the following questions: (5×2=10)

- a) Explain the different types of errors in PHP.
- b) How can you achieve data abstraction in PHP?

[Turn Over]

- c) What are the different types of PHP variable? Give examples
- d) Describe the different types of arrays in PHP.

UNIT-III

3. Answer *any one* of the following questions: (1×10 = 10)

- a) Explain five commonly used functions in PHP?
 - b) Explain database connectivity in PHP with reference to MYSQL.
-

BANKURA SAMMILANI COLLEGE

Internal Assessment Examination-2024

Semester-4th (SEC-2)

Paper-HTML Programming

Full Marks-10

Time-30 min

Answer any five questions:

5*2=10

1. What is HTML?
2. What are the different kinds of List available in HTML?
3. What is attribute?
4. What is pair and empty tag? Give example of each.
5. Difference between <P> and <pre> tag?
6. What are the heading tags available in HTML?
7. Write down tags for underline and Italic font.
8. How to insert image in HTML?

23-24/41525

B.Sc. Semester -IV Examination, 2023-24

Subject : Computer Science

Course ID :41525

Course Code: SH/CSC/405/SEC-2

Course Title: HTML Programming

(Syllabus: 2022-23)

Time: 2 Hours

Full Marks :15

*The figures in the right-hand margin it indicate marks.
Candidates are required to give answers in their own words as
far as practicable*

[Experiment =10, Viva + Notebook = 5]

Answer *any one* of the following questions:

1. Create a web page with the following specifications:

- a) Title should be about My Village.
- b) Place your village name at the top of the page in large text followed by address in smaller size.
- c) add names of your friends in a different color, style and typeface.
- d) Add scrolling text with a message of your choice.

2. Create an HTML document which consists of:

- i) Ordered List
- ii) Unordered List
- iii) Nested List of images

[Turn Over]

3. Design an HTML document of Employee Registration form with different input fields.

4. Create a table having students' Roll No, Name and Grade.

5. Write an HTML program to design a form which should allow to enter your college data.

(Hints: make use of text field, e-mail, lists, radio buttons, and check boxes, submit Button)

6. Create an HTML document with table to show your class routine of Computer Science Department.

23-24/41525

B.Sc. Semester -IV Examination, 2023-24

Subject : Computer Science

Course ID :41525

Course Title: XML Programming (Practical)

(Syllabus:2017 –18)

Time: 2 Hours

Full Marks :15

*The figures in the right-hand margin it indicate marks.
Candidates are required to give answers in their own words as
far as practicable*

[Experiment =10, Viva + Notebook = 5]

Answer **any one** of the following questions:

1. To create a parsing XML document using DOM (Document Object Model) parser.
2. To create an XML program for internal DTD (Document Type Definition) creation.
3. To create an XML program for External DTD (Document Type Definition) creation.
4. To create an XML document and database for importing and exporting XML document into database.
5. To create a program for XML schema creation and display element and attributes.
6. To create a simple XML document to display the address book.

[Turn Over]

B.Sc. Semester -IV Examination, 2023-24

Subject : Computer Science

Course ID :41525

Course Code: SH/CSC/405/SEC-2

Course Title: PHP Programming

(Syllabus: 2022-23)

Time: 2 Hours

Full Marks :15

*The figures in the right-hand margin it indicate marks.
Candidates are required to give answers in their own words as
far as practicable*

[Experiment =10, Viva + Notebook = 5]

Answer *any one* of the following questions:

10+5 = 15

1. Write a factorial program using for loop in PHP.
2. Write a PHP program to calculate to sum of digits of a number.
3. Write a PHP program to reverse the string.
4. Write a PHP program to check student grade based on marks.
5. Write a PHP program to check if a person is eligible to vote.
6. Write a PHP program to show day of a week using switch.

23-24/41525

B.Sc. Semester -IV (Practical) Examination, 2023-24
Subject : Computer Science(Honours)

Course ID :41525

Course Code: SH/CSC/405/SEC-2

Course Title: HTML Programming
(Syllabus: 2017-18)

Time: 2 Hours

Full Marks :15

The figures in the right-hand margin indicate marks.

[Experiment =10, Viva + Notebook = 5]

Answer *any one* of the following questions:

1. Create a web page of your city with the following specifications:

- i) Title should be about My City.
- ii) Place your city name at the top of the page in large text and in blue colour.
- iii) Add names of landmarks in your city each in a different colour, style and typeface.
- iv) Add scrolling text with a message of your choice.
- v) Add city image at the bottom.

[Turn Over]

2. Create a table with the following data:

Name	Roll No	Marks
Priyanka Sen	02	250
Moumita Karmakar	05	300
Suman Banerjee	06	350

Give a caption "Students Result" below the table.

3. Write an HTML code to generate the following output:

Design an HTML form to take the information of a customer visiting a departmental Store such as name, contact no, preferred days of purchasing, favourite item(to be selected from a list of items), suggestions etc. One should provide button to Submit as well a Reset the form contents.

4. Create an HTML documents as follows:

- Create a scrolling text "Bankura University".
- Display any image below the scrolling text.
- Display following text below the image:

Courses

- BA
- BSc
- BCA

Click here for detail.

Create a link with click to <http://www.bankurauniv.ac.in>.

5. Create an HTML documents as follows:

Frame 1	
Frame 2	Frame 3

6. Create an HTML code to generate following output.

Topic List

1. Programming Languages

- C
- C++
- Java
- Python

2. Web Technologies

- HTML
- CSS
- JavaScript
