

11.01.2025

B. Sc. 5th Semester (Honours) Examination, 2025

Computer Science

Course ID: 51511

Course Code: SH/CSC/501/C-11

Web Technologies

(NEW CBCS Syllabus 2022-23)

Time: 1 Hour 15 Mins

Full Marks: 25

The figures in the margin indicate full marks

UNIT I

1. Answer any 5 (five) of the following questions:

(1 × 5 = 5)

- a) What is scriptlet in JSP?
- b) What is Session Bean?
- ~~c) What is function?~~
- ~~d) What is class?~~
- ~~e) What is Event in JavaScript?~~
- ~~f) What is the difference between Java and JavaScript?~~
- ~~g) What is global variable?~~
- h) How can you comment in JSP?

[Turn Over]

UNIT II

2. Answer any 2 (two) of the following questions:

(5 × 2 = 10)

- a) Write short note on objects of JSP.
- b) Write a short note on variables of JavaScript.
- c) Describe functions in JavaScript with examples.
- d) How the BeanBox discovers a Beans Event Capabilities

UNIT III

3. Answer any 1 (one) of the following questions:

10×1=10

- a) Describe JDBC architecture? Generate Applets using BeanBox.
- b) Write down a java program to find factorial of a number / Write down the advantages and limitations of Javascript.

3. Sc. 5th Semester (Honours) Examination, 2025

Computer Science

10) Course ID: 51511

Course Code: SH/CSC/501/C-11

Internet Technologies

(OLD CBCS Syllabus 2017-18)

Time: 1 Hour 15 Mins

Full Marks: 25

The figures in the margin indicate full marks

UNIT I

0 1. Answer any 5 (five) of the following questions:

(1 × 5 = 5)

- a) What is Session Bean?
- b) What is function?
- c) What is class?
- d) What is Event in JavaScript?
- e) What is the difference between Java and JavaScript?
- f) What is JDBC driver?
- g) What is garbage collection?
- h) What is negative infinity?

[Turn Over]

UNIT II

2. Answer any 2 (two) of the following questions:

(5 × 2 = 10) C

- a) Write down the uses of JSP.
- b) Write down the features of JavaScript.
- c) Describe functions in JavaScript with examples. 1
- d) Describe the dropping a Bean on the BeanBox.

UNIT III

3. Answer any 1 (one) of the following questions:

(10 × 1 = 10)

- a) Describe JDBC architecture? Describe the JSP architecture. 5+5
- b) Write down a java program to generate Fibonacci series.
Write a SQL query to alter a table. 8+2

Banakura Sammilani College
Department of Computer Science
B.Sc. 5th Semester Internal Assessment Examination-2023
Internet Technologies (C- 11)

F.M. 10

Time: 30 Minutes

2x5=10

Answer any *five* questions:

1. What are the characteristics of an array in JavaScript?.
2. What is JavaScript DOM?
3. Why JavaScript is called as an object-based language?
4. Differentiate between == and === in JavaScript.
5. What does the map() method do?
6. Write difference between let and var in JavaScript.
7. Write differences between shift() and pop() methods in JavaScript.

a = [1, 2, 3, 4]
return 1 % 2 === 0

Computer Science

Course ID: 51521

Course Code: SH/CSC/501/C-11

Web Technologies (Practical)
(NEW CBCS Syllabus 2022-23)

Time: 2 Hrs

Full Marks: 15

The figures in the margin indicate full marks

(Experiment = 10, LNB + Viva Voce= 05)

1. Answer any 1 (ONE) of the following questions:

(10 × 1 = 10)

- a) Create an event driven program to print a table of numbers from 5 to 15 and their squares and cubes using alert.
- b) Create an event driven program to print the largest of three numbers.
- c) Create an event driven program to find the factorial of a number n.
- d) Create an event driven program that accepts a list of positive numbers terminated by Zero. Find the sum and average of these numbers.
- e) Create an event driven program for the following:
A person deposits Rs. 1000 in a fixed account

[Turn Over]

yielding 5% interest. Compute the amount in the account at the end of each year for n years. **B.**
