

23-24/ 42614

B.Sc. Semester – IV Examination of the A.Y. 2023-24

ZOOLOGY (GE)

Course ID: 42614

Course Code: SH/ZOO/404/GE-4

Course Title: Insect Vectors and Disease

(CBSC Syllabus: OLD and NEW)

Time: 1 Hour 15 Minutes

Full Marks: 25

The figures in the right-hand margin indicate full marks.

Candidates are required to give their answers in their own words as per as practicable.

1. Answer *any five* of the following questions: 1×5=5
 - a) What is Elephantiasis?
 - b) Name the order in which scale insects belong.
 - c) Define Maggot.
 - d) Give the scientific name of Sand fly and House fly.
 - e) Mention two species used in biological control of mosquito.
 - f) Name the disease caused by *Trypanosoma cruzi*.
 - g) Write the scientific name of the vector, causing Chikungunia.
 - h) What is hyperparasitism?

2. Answer *any two* of the following questions: 5×2=10
 - a) Give the scientific name of Sand fly. Write the name of the disease transmitted by it. Write about control measure of sand fly. 1+1+3
 - b) Write medical importance of houseflies. Mention controlling measure of dengue vector. 3+2

- c) Write the scientific name of the causative agent of a disease spread by bedbugs. Mention four symptoms of that disease.

1+4

- d) Describe the three forms of plague caused by *Yersinia pestis*. Add a note on the role of fleas and rodents in the transmission of plague.

2+3

3. Answer *any one* of the following questions: $10 \times 1 = 10$

- a) Write down the scientific names of three different types of louse (head, body & pubic). Write down the characteristic features of head louse and body louse. Mention the important control measures of lice.

$3 + (2 + 2) + 3 = 10$

- b) Write down the scientific name of causative agents and vector of Filariasis. Write down symptoms of Filariasis. What do you mean by signet ring stage? Mention the control measures of mosquito.

$2 + 3 + 2 + 3$

BANKURA SAMMILANI COLLEGE

UG Semester-IV Internal Assessment Test 2023-24

Subject: Zoology (GE)

Course Code- SH/ZOO/404/GE-4 Course ID- 42614

Course Title- Insect Vector and Diseases

F.M.- 10

Time: 30 mins

Answer any **five** of the following questions:

2x5=10

- 1) What is nocturnal periodicity.
- 2) What is ommatidium? Write its functions.
- 3) Write the name of primary and secondary host of *Plasmodium vivax*.
- 4) What is maggot? Function of antenna of insects.
- 5) Write the scientific name of Sand fly. It carries which pathogen?
- 6) What is vagabond disease? Write the name of the pathogen which causes plague.
- 7) Write the name of mouth parts of Cockroach.
- 8) What is schizont?

23-24/ 42624

B.Sc. Semester – IV Practical Examination, 2023-24

Subject: Zoology (GE)

Course ID: 42624

Course Code: SH/ZOO/404/GE-4

Course Title: Insect Vectors and Diseases Lab

(CBCS Syllabus New & Old)

Time: 2 Hours.

Full Marks: 15

*The figures in the right-hand side margin indicate marks.
Candidates are required to give their answers in their own words
as far as practicable.*

Answer all the questions.

1. Identify the following specimens with reason (any three specimen). 3×3=9
[½ mark for identification, 1½ mark for character and 1 mark for the name of the transmitted disease].
2. Dissect and mount the mouth parts of the provided insect specimen. 2
3. Submission of project report. 2
4. Laboratory note book. 2
